

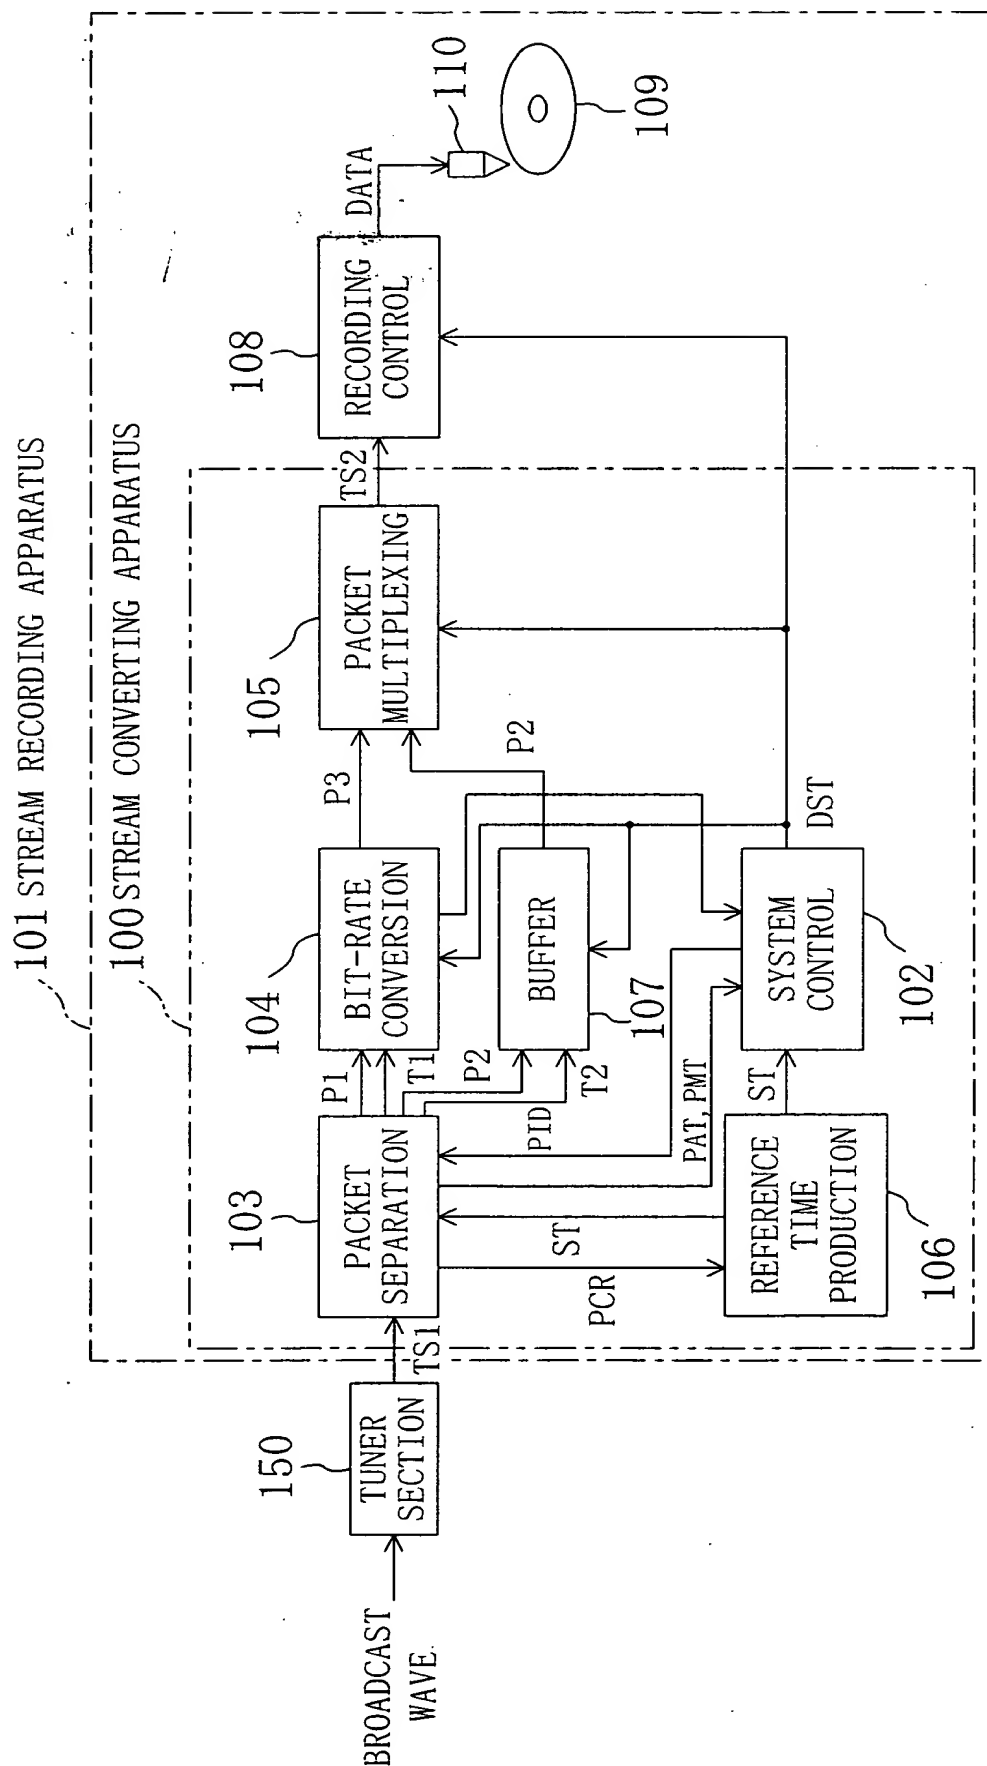

FIG. 1

The diagram shows two signals, CPES1 and P3, over time. CPES1 has pulses at t1, t2, t3, and t4. P3 has pulses at t1, t2, t3, and t4. The diagram shows that P3 pulses occur at the same time as CPES1 pulses.

[illegible]

Diagram illustrating a data stream structure. The stream is divided into segments labeled P, V, A, and A. The segments are numbered 201, 251, 252, 225, 254, 226, 255, and 256. The segments are grouped into four time intervals: t0, t1, t6, and t7. The word DATA is written below the stream.
